

Revised Adult Vaccine Availability Table

Eligibility:

- MDPH **no** longer provides vaccines for adults seen at private provider sites.
- MDPH provides a **very** limited supply of some vaccines for adults seen in public sector sites¹.
- State supplied vaccine at these public sites should be **prioritized** for the highest risk adults² without insurance or for adults who are under-insured.
- **Exception:** Td vaccine will be available at both public and private sector sites (and influenza vaccine for the 2008-2009 season that has already been allocated).

The **only** vaccines currently provided by MDPH for adults are outlined in the table below.

Private Sector	
Vaccine	MDPH Supplied Vaccine Available For
Td	<ul style="list-style-type: none"> • Adults in ACIP recommended groups²
Public Sector	
Vaccine	MDPH Supplied Vaccine Available For
Hep A	<ul style="list-style-type: none"> • Very limited amount for adults in ACIP recommended groups² seen at public provider sites • Prioritized for those at highest risk² without health insurance or who are under-insured
Hep B	<ul style="list-style-type: none"> • Very limited amounts for adults in ACIP recommended groups² seen at public provider sites • Prioritized for those at highest risk² without health insurance or who are under-insured <p><u>Please Note:</u> Employers covered by federal OSHA regulations are responsible for supplying hepatitis B vaccine to their at-risk employees. State-supplied vaccine is not available for this group.</p>
MMR	<ul style="list-style-type: none"> • Very limited amounts for adults in ACIP recommended groups² seen at public sites • Prioritized for those at highest risk² without health insurance or who are under-insured

Polio	<ul style="list-style-type: none"> • Very limited amount for adults in ACIP recommended groups² seen at public sites • Prioritized for those at highest risk² without health insurance or who are under-insured
Varicella	<ul style="list-style-type: none"> • Very limited amount for adults in ACIP recommended groups² seen at public sites • Prioritized for those at highest risk² without health insurance or who are under-insured
Td	<ul style="list-style-type: none"> • Adults in ACIP recommended groups²

¹ **Public Sector Sites:** Places where adults get immunized, including: local health departments; community health centers; STD clinics; integrated counseling, testing and referral sites; correctional facilities; public hospitals; and other public providers who have received state-supplied vaccines.

² **High Risk Groups:** For a list of vaccines and the groups for whom vaccine is recommended, please see the MDPH document *Summary of Advisory Committee on Immunization Practices (ACIP) Recommended Groups for Vaccination*. For the complete ACIP recommendations, see www.cdc.gov/nip/ACIP/default.htm.
